

NGO Development Seminar

Executive Councillors

Date

Saturday 2 May 2009

Presenters

Shan-e-Abbas Hassam

Assistant Secretary General for Relief & Economic Development

Imran Janmohamed

NGO Manager

NGO Myths

- What is an NGO?
- What an ECOSOC NGO?
- What is ESOSOC of the UN?

Membership of Other Bodies

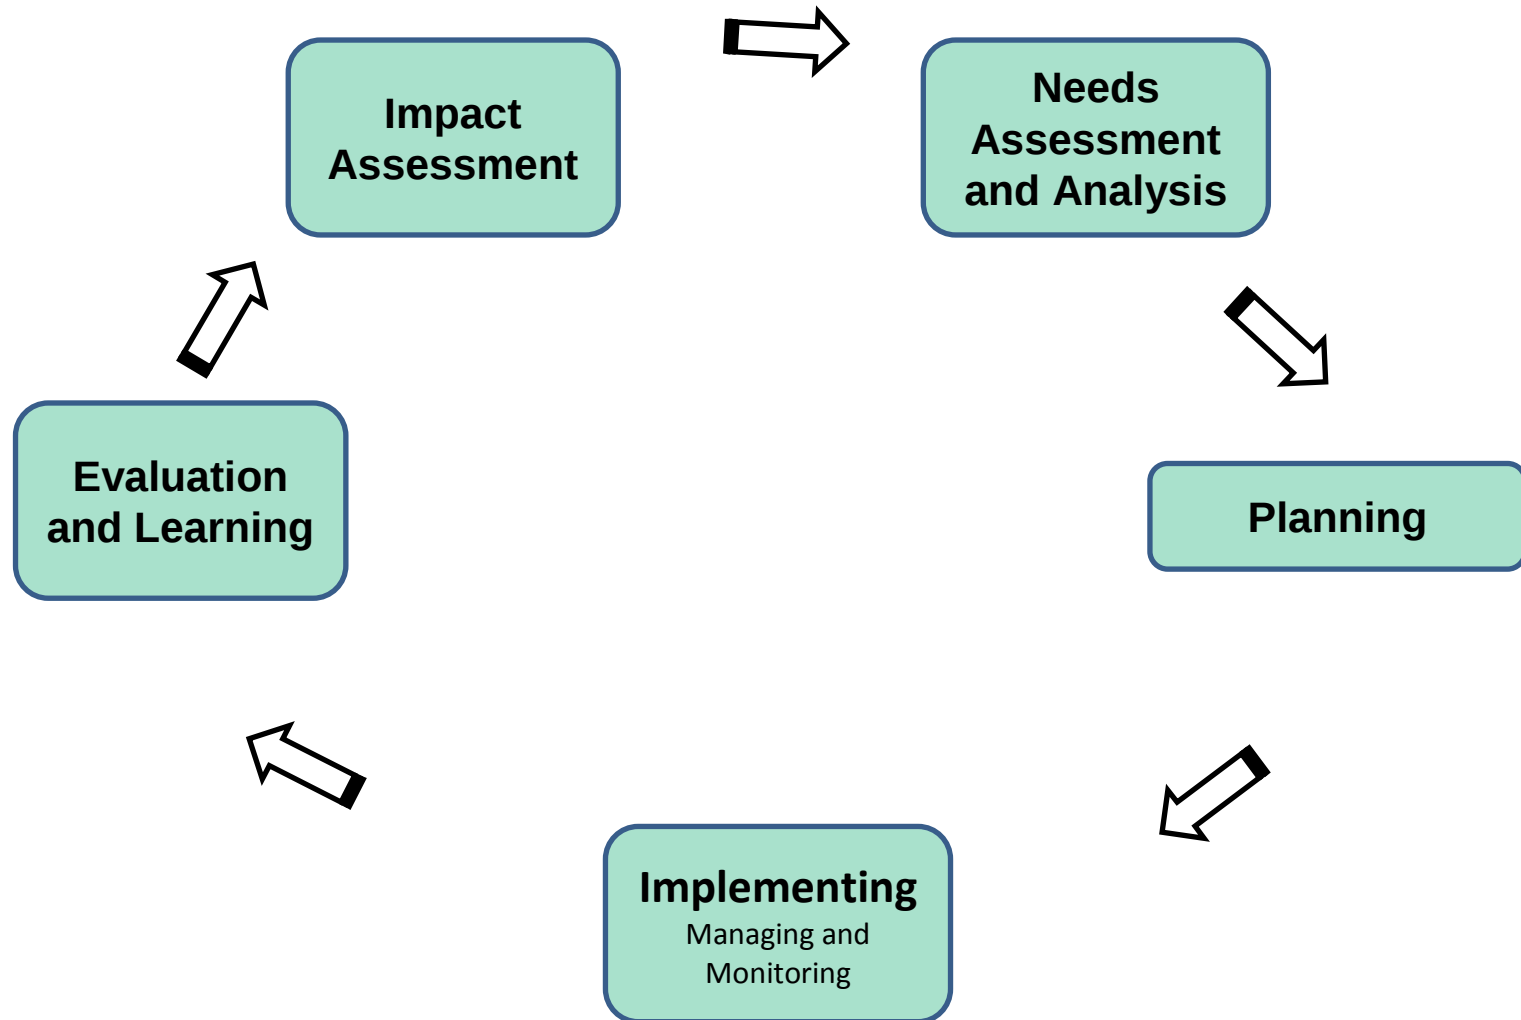

- **British Overseas NGOs for Development (BOND)**
 - BOND is a UK membership body for non-governmental organisations (NGOs) working in international development.
 - It was established in 1993 and has over 340 member organisations
 - BOND promotes, supports, represents and, on occasion, leads the work and interests of the UK international development sector.
 - It does this through the exchange of experience, ideas and information

- **The World Association of Non-Governmental Organizations (WANGO)**
 - The World Association of Non-Governmental Organizations (WANGO) is an international organization uniting NGOs worldwide in the cause of advancing peace and global well being.
 - WANGO helps to provide the mechanism and support needed for NGOs to connect, partner, share, inspire, and multiply their contributions to solve humanity's basic problems.
- **Fundraising Standards Board (FRSB)**
- **End Water Campaign**

A Typical Project Cycle

Logical Project model

Inputs → Activities → Outputs → Outcomes → Impacts

Monitoring: what
has been invested,
done and produced,

What was purchased?

Evaluation:
What has been
achieved as a
result of the
project?
How good was
the plan?

**Impact
assessment:**
what long-term,
sustainable
changes have
been produced

Monitoring

- Tracking progress in accordance with previously identified objectives, indicators, or targets (plan vs. reality...)
- “going to plan”

Evaluation

- Assessment of the relevance, performance, efficiency and impact of a piece of work with respect to its objectives
- Systematic, data based -Often can use data from monitoring as *one* source of information
- E - valua – tion
- Can address “how” and “why” questions

Logical Framework

PROJECT STRUCTURE (At concept stage)	INDICATOR	VERIFICATION	RISKS and ASSUMPTIONS
<u>Goal / Impact</u> Better health for children in X			
<u>Purpose</u> Reduced child mortality from measles	Specific		<i>Only if.....</i>
<u>Outputs</u> 1. Health workers trained 2. 3. 4.	Measurable		
	Achievable		<i>Only if.....</i>
	Resourced		
<u>Activities</u> •Training courses in	Time-bound		

Purpose and Benefits

- Accountability
- Evidence
- Improvement
- Identify new policies, programme directions, strategies
- Learning, performance and decision making
- Identification of needs
- Share information

Four Stages of NGO Work

- Stage 1: Enhancing the Structure
- Stage 2: Creating Sustainable Networks
- Stage 3: Extending Influence
- Stage 4: Seeking external resources

Where are we now?

Documents that would be required as part of its portfolio for its NGO work. (Pages 30-70):

- 3.1. Governance and Organisation Chart
- 3.2. Membership structure
- 3.3. Accountability statements
- 3.4. Our guiding statements
- 3.5. Agency Agreement
- 3.6. Conditions of Grant Aid
- 3.7. Grant Application
- 3.8. Project Reporting document

3.9. Anti-money laundering and anti-fraud policy

3.10. Letters for Advocacy

3.11. Other documents

- 72 Hexagon Assurance Framework
- Disaster Relief: The Ultimate Emergency'
- Water and Sanitation Policy
- 'Economic Upliftment: A Strategic Handbook'
- Ramadhan Relief (Draft)
- Volunteer handbook

Shaping our future work

- If you knew that this work plan will help us realise our collective vision of the NGO what do we need to be aware of that we are not aware of?
- What 3 things if The World Federation did would accelerate the delivery of the work plan?
- Assuming the delivery of the work plan will help us meet our goals of building trust across our communities on the NGO agenda and do Allah (swt)'s work, more effectively what support will we need from our partners?

- Assuming that we will deliver the work plan through the building of relationships across our communities what skills do our institutions need to develop?

Conclusion

- Go forward, monitor *and* evaluate – and help to make a difference.
