The World Federation fund a specialist clinic in Lucknow.

How the Centre works:

- Cases hailing from all across India are brought to the attention of our partnering agency in Lucknow for assistance
- Due diligence and needs assessments are carried out for each patient by our agency
- Upon approval, patients are brought to Lucknow and seen by a specialist who initiates the treatment as necessary
- Patients stay at the centre during the course of their treatment. The WF pays for the cost of the treatment, medication, transportation and accomodation in full.
