The world illiteracy rate is just shy of 900 million people. The sad reality we have to contend with is not the fact that nearly one in seven people in the world is illiterate, but it is the fact that children are being born every minute that have no hope of ever getting the chance to educate themselves or escape poverty. Its only through the provision of education that we can collectively conquer other challenges.

NOT POSSIBLE FOR MANY!

The Education Departments objective

THE
WORLD
FEDERATION
OF KHOJA SHIA ISHNA'ASIRI MUSLIM COMMUNITIES

The World Federation's education objective is to empower communities with the ability to become self-sufficient. We aim to enable growth and progress through education. This will create a generation of skilled individuals who will work together to lift their communities out of poverty.

BMMK Fill My Cup Appeal

For many children living in the poor and rural areas of Kenya, parents cannot afford to provide a simple breakfast for their children. To help feed these hungry pre-primary and Madrassa children in Kenya, The World Federation launched a worldwide appeal to raise funds for this food programme. Starting the day with a nutritious breakfast of porridge will allow the children to stay healthy, increase their vitality and maximize their learning capabilities.
